## Rugged, 1/3 N Lithium Battery Holders

Astoria, NY...Expanding on their already diverse offering of premium battery holders, Keystone Electronics Corp now offers surface and thru-hole mountable holders for 1/3N, 3volt lithium batteries.

These new battery holders are supplied with a durable Heat Resistant, UL 94V-0 rated nylon housing ideal for all soldering and reflow operations. The SMT version (Catalog #498) features Gold-Plated Phosphor Bronze contacts. The THM version (Catalog #497) offers Tin-Plated Phosphor Bronze contacts and heat resistant Nylon housing. In addition, these THM types directly mount on PCB's and securely position during wave soldering and placement.

Both holders accept 1/3N 3-Volt Cell Lithium batteries from major manufacturers and are part of the company's continuing growth selection of battery hardware specialties including contacts, holders, retainers and straps in a variety of materials for coin cell, button cell and cylindrical batteries. In addition to a broad line of quality interconnects, hardware and components, the firm maintains an application engineering group which is supported by expert stamping, machining and assembly operations.

Keystone is ISO-9001:2000 certified, RoHS compliant, with US headquarters and offices in Canada, Europe, Australia and Asia. For more information and literature, contact Keystone Electronics Corp., 31-07 20<sup>th</sup> Road, Astoria, NY 11105-2017; tel: (800) 221-5510; fax: (718) 956-9040; or view [www.keyelco.com](http://www.keyelco.com); Email: [kec@keyelco.com](mailto:kec@keyelco.com).
